

BUILDERS OF CALIFORNIA

7 of the 10

largest construction companies in California are depositors in Bank of America

Harry too, is on the job 500 miles away

He may never see the rising buildings that help to pay his wages. For Harry Smith is one of thousands—in office, factory, forest, mine and mill—who are essential to every construction project.

Each new building creates income for many men and industries. A bungalow may require 100 materials and manufactured products; a skyscraper, 1,000 or more.

The vital importance of this industry is suggested by California's building permits, totalling four billion dollars in the past 10 years. Most of this money was spent for materials and wages.

Indirectly benefiting every family, construction is normally the livelihood of more than 100,000 men in this state.

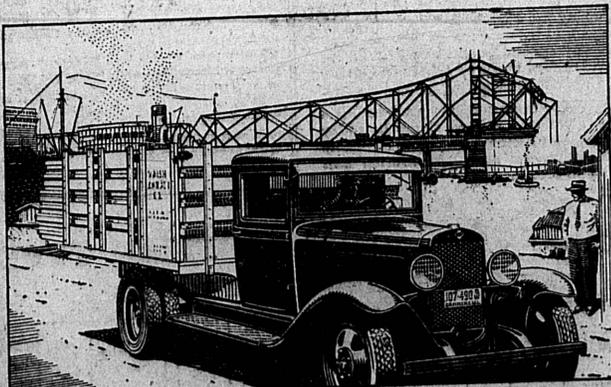

Bank of America has worked shoulder-to-shoulder with these Builders of California—has helped finance thousands of homes and other buildings throughout the state; has invested and underwritten millions in bonds for public works, schools, and state, county, and city improvements.

And today—with building costs the lowest in 10 years—Bank of America encourages economically-sound construction. You are cordially invited to discuss with any officer of this Bank, the financing of a home or any needed project.

Ton for ton . . . mile for mile Chevrolet six-cylinder trucks cost less to operate

It is a matter of record, among more and more large fleet operators, that Chevrolet six-cylinder trucks give a lower transportation cost than any other truck of equal capacity in the market.

These firms are finding, through experience, that Chevrolet sedan deliveries are capable of 20 miles or better, to the gallon of gasoline; that Chevrolet 1 1/2-ton trucks are making fuel records which are relatively just as high. That it costs very little to keep Chevrolet trucks in first-class working order. That Chevrolet service charges on both parts and labor are exceptionally low. That the active life of Chevrolet trucks extends well past the 50,000 mileage mark.

To place your hauling on a minimum-cost basis—and keep it there—put Chevrolet six-cylinder trucks to work. A wide variety of Chevrolet-built bodies is now available. And delivered prices of Chevrolet trucks, complete and ready for work, are based on low chassis-cost and low body-cost, plus only reasonable charges for handling and financing.

CHURCHES OF CHRIST, SCIENTIST
"Is the Universe, including Man, Evolved by Atomic Force?" is the subject of the Christian Science Lesson-Sermon, Sunday, June 21, in all branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Lesson-Sermon answers the question in the negative by presenting citations from the Bible and correlating passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy. One of the inspired statements includes the inspired statement of the Revelator: "And after these things I heard a great voice of many people in heaven, saying, Alleluia! Salvation, and glory, and honour, and power, unto the Lord our God: . . . And a voice came out of the throne, saying, Praise our God, all ye his servants, and ye that fear him, both small and great. . . . And I heard as it were the voice of a great multitude, and as the voice of many waters, and as the voice of mighty thunderings, saying, Alleluia: for the Lord God omnipotent reigneth."

A passage from Science and Health states: "There is no power apart from God. Omnipotence has all-power, and to acknowledge any other power is to dishonor God."

Gossard Factory To Show Complete Line At Rappaport's Fri.

To every woman in Torrance who regards her figure as something to be cared for and improved, will come as a highly interesting event the announcement of a factory exhibit at Rappaport's on Friday of this week, of the full line of Gossard's "Line of Beauty" garments.

"Not even the largest of department stores are known to carry a complete line of figure-improving garments," said Mr. Rappaport, "since the list of models is so large, and includes garments suited to the extreme types, stout or slender."

"But with the coming of the factory representative to our local department store," he continued, "every woman in Torrance, Lomita and vicinity may have the opportunity for perhaps the first time to see all the factory models, and to try on such as may please her fancy."

"The Gossard Line of Beauty includes such new ideas as the Miesimplicity garment, Teddies, circles and brassieres, fashioned to every type of feminine figure and the joy of wearing one of these perfect fitting garments is only equalled by the satisfaction of knowing that the lines of the figure are thereby correctly and stylishly revealed."

The display will be offered Friday only, June 9, and the store management extends a cordial invitation to the women of the community to come in, see and try the attractive models.

The Torrance Herald accepts no responsibility for articles published under this heading, but is glad to publish opinions of its readers even though these opinions may differ from those of the publishers.

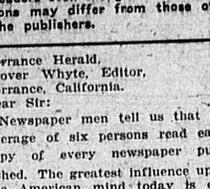

Torrance Herald, Grover Whyte, Editor, Torrance, California.
Dear Sir:
Newspaper men tell us that an average of six persons read each copy of every newspaper published. The greatest influence upon the American mind today is exerted by the daily and weekly press.

I have watched with great interest during my four years in Torrance, the progress made by the Torrance Herald, as well as the influence for moral and economic progress made upon our citizenry. The Herald is to be commended for the space given to the churches and moral forces in our community. Your courtesy to me as a minister has been of the highest type and greatly appreciated. And while I am leaving Torrance, I wish for the Torrance Herald continued progress in the field of journalism.

Sincerely,
R. A. YOUNG, M. A., B. D.
